

A social gathering at Swimbridge (top) and the new 15-resident wing (bottom).

Top care without compromise

Swimbridge House Nursing Home is committed to providing a high level of care for its residents.

This includes ensuring that residents are helped to live independently as possible and are offered activities which offer stimulation.

We work closely with the families of those who reside with us to ensure they are

involved in planning the care we provide and keep them informed of their family member's progress.

Our days revolve around our residents and their preferred routines and lifestyles to meet their selected choices.

We realise that being socially active is very important for maintaining a good quality of life.

As such, the Home is dedicated to making sure that our residents are able to enjoy social activities and occasions.

September saw various activities such as gardening, flower arranging and a visit from the singer Bill Butcher and the PAT dog.

October will be busy again, with pub afternoons including games of bar skittles, dominos and darts, the ice cream van, a Royal afternoon tea and entertainment by musicians and Bill Butcher.

Extension for 15 residents

Swimbridge House Nursing Home has also recently completed an extension for 15 additional residents.

Each new bedroom has en-suite facilities with a shower and is tastefully decorated, with a unique and homely feel.

As the new wing has been opened for almost a month, we have been welcoming many new residents and ensuring they are settling in well.

Since individuality is at the heart of our vision, residents have been personalising their rooms by bringing special photographs, mementoes and items of furniture.

We also have a radio campaign currently airing on Heart Radio, so make sure you keep an ear out for it!

If you would like to know more about Swimbridge House or have any enquiries, please call 01271 830599 and ask for Claire or Joost.
